

Resume

Jean-François BRUGERE, Ph.D, HDR

<http://www.archaeome.ami-hd.tolie-libre.org>

E-mail : J-Francois.Brugere@uca.fr

Mobile : +33 (0)6 2349 4867

Date of Birth: 24th December, 1970 (50 y.)

Address (*Research lab*) : LMGE UMR CNRS UCA 6023 – Université Clermont Auvergne UCA - Impasse Amélie Murat – Campus des Cézeaux - F-63177 Aubière, France

Current Position Associate Professor in Molecular Biology, Biochemistry and Biotechnology
University Institute of Technology (IUT), Université Clermont Auvergne, France

Previous positions

- 2000-2001 (18 months) as Project Manager, NUCLEICA
Head of technological developments (biopôle Clermont-Limagne)
- 2001-2014 Full-position as Associate Professor at Faculty of Pharmacy
Grenoble University (Joseph Fourier University)

Leadership Positions skills

Internationally recognized expert in **human gut methanogens**

Internationally recognized expert in the **7th order of methanogens**

Pharmabiotics conceptualization with the domain ARCHAEOA (**Archaeobiotics**)

Research Summary

Initially, genetics, genomics and gene expression regulation in eucaryotes (mammals and unicellular organisms encompassing parasites): molecular biology, cellular biology and bioanalysis. Development of SNPs and mutation detection assays for human (based on solid-phase PCR and enzymatic reactions)

Since last position: Research interests in

- diet-gut microbiota-health interactions with emphasis on the archaeal component of the gut microbiome (microbial ecology, biochemistry, anaerobic microbiology) in the context of cardiovascular disease (CVD) / CVD prevention / ageing.
- Development of technological tools for *in vitro* (continuous) simulation systems mimicking the environment of gut microbes, for maintaining gut microbes and allowing their differentiation (ECSIM systems).
- Methanogenesis and C1-compound metabolism by gut methanogens – Pyrrolysine-encoding and genome evolution of free vs host-associated gut inhabitants, using Methanomassiliicoccales as a biological model

Academic responsibilities

Grenoble 1 University (Joseph Fourier University - UJF)

2002-2004 Establishment and then educational manager of Professional MSC degree "In vitro Diagnostic Industry", Grenoble1 University (*still existing as an option of Master Grade*)

Auvergne University UdA (Clermont-Auvergne University – UCA since 01/2017)

2003-2004 Elected alternate member, 41th scientific commission for associate professor positions
2007-2008 Elected alternate member of the Health and Safety Committee
2007-2011 Elected member "department council" of the **Diploma of Higher Education**: Applied Biology (Biological & Biochemical Analyses)
2008-2011 Elected member of Board of Directors of the University
2009-2011 Elected member of joint technical committee of the University
2011-2015 Elected member of Board of Directors of the University
2012-2015 Member of « Disciplinary Board » of the University, for teachers and associate professors
2013-2015 Elected member "department council" of the **Diploma of Higher Education**: Applied Biology (Biological & Biochemical Analyses)
2013-2016 Chairmanships for recruitments of teachers (PRCE/PRAG)
Member of the Standing Committee for the Empowerment of Externals, Life Sciences
Since 2015 Member of the "Technical Committee" of the University

Other

2008-2011 Member of "scientific animation committee" of CRNH-Auvergne
Human Nutrition Research Centre, one of the 4th national nutrition-dedicated research centre
2010-2011 Member of working package "Characterization" of the *Pharmabiotic Research Institute IRP-PRI*
2015 Member of the Organizing Committee for the « 3rd International Congress of Translational Research in Human Nutrition » (3rd ICTRHN), « Intestinal Microbiota & Chronic Diseases », Clermont-Fd, June 26-27.
Since 2016 Member of working package "Case of strict anaerobes and their specificity", *Pharmabiotic Research Institute IRP-PRI*
Since 2017 Referent individual from CRNH Auvergne for "Institut Carnot QUALIMENT" working package "Gut microbiota, probiotics, ferments of food and health interests"

Academic Qualifications (French names)

1988	High School Degree , major Mathematics	<i>Baccalauréat série C</i>
1990	Diploma of Higher Education : Applied Biology (Biological & Biochemical Analyses)	<i>DUT, Diplôme Universitaire Technologique, Université d'Auvergne, Clermont-Ferrand</i>
1992-93	BSC Degree in Cellular Biology with honors	
	Master's Degree in Molecular & Cellular Physiology (Animal Physiology), with honors	
	<i>Licence & Maîtrise, Université Blaise Pascal, Clermont-Ferrand</i>	
1994	Certificate in Medical Molecular Genetics with honors (during military service)	<i>Certificat Universitaire de Génétique Moléculaire Médicale, University Rennes I</i>
1995	MSC in Molecular & Cellular Biology with honors	<i>DEA, Ecole Doctorale des Sciences de la Vie et de la Santé, Clermont-Ferrand</i>
1996-2000	PhD in Biology with honors	<i>"Physical map of the microsporidian genome of <i>Encephalitozoon cuniculi</i>" Panel chaired by C. Vivarès ; external examiners: Mr Katinka (INSERM), Mr Pagès (CNRS)</i>
2004	Diploma entitled " Habilitation à Diriger des Recherches –HDR ", Université Grenoble I	<i>French diploma mandatory for supervision of thesis Panel composition: Prof R Grillot (chair), M.Alric, E. Drouet, B.Mandrand, P.Peyret, R Robert</i>

Funding

French governmental funding, to which is added (since 2012):

- various industrial research contracts: the main one was with Lesaffre Int. (total contribution, 2012-2017, about 420 k€.).
- Lab equipments acquired through Auvergne Council-Europe co-funding (CPER/FEDER calls) 120 k€,
- Principal Investigator on a European project (JPI -Joint Program Initiative) "Healthy Diet for a Healthy Life (HDHL)": DINAMIC project coordinated by Thomas Clavel, Aachen et Dirk Haller, TUM, Munich

Patents:

- **Brugère J.-F., Borrel G., Alric M., Malpuech-Brugère C., O'Toole P.W. (2013)** Utilisation de microorganismes pour diminuer le taux de triméthylamine dans une cavité du corps humain, notamment pour le traitement de la triméthylaminurie ou d'une vaginose bactérienne et la prévention des maladies cardiovasculaires. Brevet WO2014082773 A1 → *Use of microorganisms for reducing the level of trimethylamine in a human body cavity, in particular for the treatment of trimethylaminuria or of bacterial vaginosis and the prevention of cardiovascular diseases. US Patent App. 14/648,186-2016*
- **Ben Hania W., Brugère J.-F., Fardeau M.-L., Ollivier B. (2017)** Procédé d'isolement de *Methanomassiliicoccales* – (French demand, 1st December 2017, # 1761536)

Guest speaker at conferences:

- Archaebiotics: a new approach in preventing human cardiovascular diseases. Pharmabiotics Conference 2014, PRI-IRP, The Meridien Etoile Hotel, Paris, October 2014.
- Diversités phylogénétique et métabolique de la composante méthanol-gène du microbiote intestinal humain : vers des probiotiques de nouvelle génération ? GDR CNRS 3635 Archaea, Museum d'Histoire Naturelle, Toulouse, France, Mars 2015.
- Diversité et Fonctions : exemple de l'étude des archées méthanol-gènes du microbiote intestinal humain. Réseau INRA NEM Nutrition et Ecologie Microbienne, Toulouse, France, Mai 2015.
- Biomarqueurs prédictifs et microbiote intestinal, un biomarqueur en lui-même. Université d'été de la nutrition, Clermont-Ferrand, France, Septembre 2016.
- Contribution of the gut microbiota to cardiovascular disease: the beneficial role of Archaea? *Theodor Escherich Symposium 2016*, Graz, Austria, 3-4 November 2016.
- Archaea: great expectations from a forgotten island in next generation probiotics. *9th Probiotics, Prebiotics & Newfoods, Nutraceuticals and Botanicals*, Roma (Italia), 10-12 September 2017
- *programmed*
 - EMBO International workshop on "Molecular Biology of Archaea: from mechanisms to ecology". 6th European MBoA conference series (MBoA6). Vienna (Austria), 5-7 September 2018
 - French National Pharmacy Academy (Feb. 2018)

PhD and post-doctoral mentorship

Post-doc :

- David Feria-Gervasio (24 months), Regional Council-European co-funding
- Guillaume Borrel (12 months), Industrial funding
- Prem Prashant Chaudhary (18 months, university funding)
- Wajdi Ben Hania (24 months, industrial funding)
- Bérénice Battut (18 months, Regional Council-European co-funding)
- Marie-Edith Arnal (12 months, university funding)

PhD:

- Agnès Mihajlovski (2006-2009), governmental funding
- William Tottey (2010-2013), Regional Council-European co-funding
- Nadia Gaci (2012-2015), governmental funding

Peer reviewing for various journals, encompassing:

Alimentary Pharmacology & Therapeutics, Anaerobe, Applied & Environmental Microbiology, Biochimie, BMC Microbiology, British Journal of Nutrition, Emerging Topics in Life Sciences, Expert Review in Gastroenterology and Hepatology, FEMS Microbiology Letters, ISME Journal, Journal of Food Engineering, Life, PlosOne, Scientific Reports,...

Expertise for governmental agencies

- 2014, CSO Scotland, Probiotics (220.000 £)
- 2015, NSC (National Science Centre Poland), Poland, 2 projects linked to diet, intestinal microbiota and cardiovascular disease
- 2015, FWF (Austria Science Fund), Austria, Archaea and human microbiotas (350.000€)
- 2017, FWF (Austria Science Fund), Austria, Archaea and human skin
